

In an ever-changing business environment that continues to modernise by the second, the electronic delivery of Certificates of Origin (CoO) has become essential. The Chamber of Commerce of Central Switzerland offers online CoO services to expedite the application and issuance process, as well as security.

Definition

Electronic Certificates of Origin refers to CoO applied online: electronically via internet.

Relates to full integrated and all paperless e-origin services which includes electronic issue of CO with electronic signature, stamps and security features in place.

The approved documents may be printed at the premises of the applicants.

Reg. Nr. 50101
1/1

Register No 50101

We hereby certify that the above
mentioned goods are of Swiss origin.
Luzern 16.12.2011
Chamber of Commerce and Industry
of Central Switzerland

To keep pace with the rapid shift to e-Business and improve efficiency in serving the business community, providing e-origin is a top priority for us.

Handling of export documents over internet such as:

- Certificates of Origin
- Invoices
- Attestations
- Visa applications
- Agreements
- Free Sale Certificates
- Pricelists
- and many more...

With increasing concerns on fraud and the need to improve the security of the supply chain security, we provide online CO services to provide a secure trading environment, but also to save time, costs and increase transparency.

- The company must already have some experience with regard to the application for a certificate of origin
- After a company has declared its readiness to participate in the electronic procedure, the IHZ examines the internal process regarding the origin-management of the company.
- However, as a rule this is not necessary for customers who already cooperate with the IHZ in the area of non-preferential origin of goods or the company is given the status as “Approved Exporter” by the Federal Customs Administrations (FCA).

Contract between applicant , IHZ and Federal Customs Administration

The contract, which IHZ has to conclude with the company, has to be approved by the Federal Customs Administration.

Once this application has been approved, the authorization is given to participate in the electronic procedure.

The consent of the Federal Customs Administration to participate in e-origin can be revoked at any time.

- e-origin is more secure than paper-based COs as recipients of e-origin as foreign authorities can check the authenticity of a document online.
- e-origin save time for customers
- It saves time by eliminating travel and queueing for the submission and collection of a CoO.
- e-origin enables us to provide efficient and speedy certification services within minutes in a secure documentation environment.
- e-origin improves the working environment by significantly reducing the burden for extensive filing and storage facilities for CoO documentation.
- e-origin increases consistency of applications resulting in fewer rejections.
- reduce paperwork through online data exchange and integration.

- Internet connection at any workplace
- Color printer (per workstation or network printer)
- Acrobat-Reader
- Browser Versions: Microsoft Internet Explorer 11+, Microsoft Edge, Mozilla FireFox 2+, Google Chrome 1+, Safari 3+, Opera 9+

For the issue of CoO as well as the confirmation of trade documents, the IHZ shall charge the following fees for each application, each of which relates to an original and any number of copies:

- Basic price according to IHZ price list for certifications
- No license or registration fee is charged for e-origin, but a surcharge of CHF 15.00 per application, including certified invoices and all required copies. In addition, customers receive a monthly collective invoice upon request.

Welcome to e-origin!
